TEACHING EXPERIENCE

TEACHING ASSISTANT

Uplift Code Camp | July 2021 - present

- Equip students with a problem-solving mindset, helping them build their portfolios and instilling a continuous learning habit.
- Work alongside the teaching team to best meet the needs and learning styles of the students.
- Arm them with the critical technical competence that they'll need.
- Motivate them to be present and participate in class.
- Facilitate a dynamic and collaborative classroom community.
- Instil good habits in them eg. punctuality, asking questions, time management
- Motivate and support them in building their projects and portfolio.

- Inspire students to persevere through the challenges of learning
- Introduce students to the community.
- Handle 1:1 consultations of students - guide students on debugging, explaining concepts
- Coach students on their questions in Discord
- Co-craft projects and home works that can sharpen the students and that they can use on their portfolios.
- Co-create slides and documents as resources for the students.
- Provide supplementary resources that the students can study out of class.
- Development of internal tools to improve teacher and student quality of life
- Create weekly class assessments for co-teachers and other stakeholders
- Provide assessments to students eg. 1:1s, code reviews, presentation feedback, grading of deliverables
- Suggest updates on the curriculum and resources to be more relevant and effective to the students.
